Date: 22/03/2016

Dear Simon

Classification as a recovery operation using the R1 Energy Efficiency Formula

Application reference: EPR/XP3935TX/V003

Operator: Severn Waste Services Limited

Facility: EnviRecover

Thank you for your application, received 04/02/2016, concerning the EnviRecover incinerator at Hartlebury Trading Estate. Based on the information that you provided and presented in the attached spreadsheet, we have concluded it is capable of having an R1 energy efficiency factor equal to or above 0.65. This letter therefore preliminarily certifies that it is an R1 recovery operation under Annex II of Directive 2008/98/EC on Waste based on design data. We will indicate this status on our website. It will need to be validated when plant acceptance data is available.

We remind you:

- to contact us if the data used in the assessment changes which may reduce it below 0.65, eg as a result of plant modifications or arrangements to take the energy.
- to confirm the design data when plant acceptance data is available
- operational plants will need to submit an updated version of the spreadsheet by end of January each year, covering performance over the last calendar year, so we can revalidate the R1 certification.

If you have any questions please phone Simon Paterson on 0203 025 2888 or email simon.paterson@environment-agency.gov.uk.

Yours sincerely

Mike Jenkins
Principal Permitting Team Leader
